- * Humidity condition : 25 to 85%RH

7) Storage term

We recommend using within a year of shipment under the environment set in the specification (Temperature : 15–35°C, Humidity: 25–85%RH) regardless of opening the product or not. Crystal oscillator doesn't have a lifetime by reason of little performance change caused by secular variation. Nevertheless, please note that you should confirm the specification of our product whose storage period expires before use.
